REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the applicants amended the claims to recite the specific substrates with resistors and to positively recite "micro etching", micro pitting and roughening of the surfaces. The applicants also filed an Affidavit showing that the method of the invention does not smoothens the surface of the substrate. The examiner after consideration of the amended claims and Affidavit and reconsideration of the prior art takes the position that the prior art fails to teach or fairly suggest the claimed invention because JP 5-148,658 teaches smoothing of the surface. No more relevant prior art was found. It is noted that the term "phosphate salt" was interpreted according to the applicants position presented in the Remarks filed 7/1/04 and as described in the specification (page 13, line 17 – page 14, line 2).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Markoff whose telephone number is 571-272-1304. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Barr can be reached on 571-272-1414. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
